

the Joyful Organizer

If you are in the moving and relocation industry, you have probably heard the statistic that moving is one of life's top three stressors. Whether that is true or not, your client's upcoming move is probably going to be the most stressful event that they are dealing with at the time.

Wouldn't it be great to provide them with an all-in-one resource that helps them mitigate the stress of moving by getting organized? Wouldn't it be even better if that resource helped *you* by answering many of the common questions your clients have associated with moving? Look no further, our *Guide to a Joyful Move* is exactly what they need.

Working with transferring employees I found that the most common complaint was that there was no "manual" to help with the home sale, packing, household goods move, and move-in process. There was no guide that said, "Do this first!" or "Don't do that!" All of the uncertainty of what to do next was the leading cause of stress in their move. I realized that with a little planning, organization, and helpful information it was possible to remove the stress, and bring the excitement of a new destination back to moving. This guide will keep your clients on the path to a smooth move.

How will this benefit my clients?

- Help them declutter their home to ensure a quick sale for the highest price
- Get their belongings organized for moving day
- Help them get their address changed with friends, family, and service providers
- Give them checklists of things to get done, and when to accomplish them
- Get them back up and running in their new home as soon as possible

When your clients are organized:

- They know what steps to take next, which alleviates the stress of the unknown
- Their home will show better, sell more quickly, and they will have more proceeds to buy their new home
- You will spend less time managing parts of the relocation that are out of your control
- They will have their new home set up more quickly, which will allow them to focus on their new job responsibilities.

The Joyful Organizer's Guide to a Joyful Move

Everything You Need to Know to Stay Organized During Your Family's Move

Bonnie Joy Dewkett

the Joyful Organizer

This is a cost effective way to recognize the needs of your clients in advance, and provide them with a way to make their life easier for the next several months of their move. We are absolutely convinced that our guide will make a difference in the lives of your clients.

Testimonials

"WOW! Bonnie, what a book! I'm so impressed with the detail of what needs to be done and when. Honestly, as organized as I was with my move(s), there are several sections of your book that would have been a great help, particularly keeping track of change of address issues for monthly periodicals and utilities."

-Brenda Spandrio,
Certified Productive Environment Specialist

"There is so much in this guide that I can't believe I didn't know about something like this before! Now I'm looking forward to moving. I highly recommend this little life saver. If you plan on moving soon, or if you just want to redecorate, this is a great tool to have."

- Bridget, Readaholic Blog

"I lived in a different house every year of my life from 3rd grade through 11th grade. I have lived at least 10 different places since, and I can easily say that I hate moving. The thought that a person could have a joyful moving experience was beyond me until Bonnie provided me with a copy of her book. Since I am planning at least one, and possibly two, more moves before I am completely settled, I am glad to have found the "Guide to a Joyful Move." I don't have near the dread I had before reading this book!"

- Jayne, Misplaced City Girl Blog

"I can't imagine needing any other resource for your move. I would print it out and keep it within arm's reach throughout the entire moving journey. Bonnie has remembered every detail for you, and the format is very user-friendly. She addresses it all, from practical tips on the actual process of moving to emotional issues like helping your kids say goodbye to the old and hello to the new."

-Katie, Frugal Femina
